

Academic Vocabulary

**Focusing on General Academic
Vocabulary to Enhance
Understanding of Complex Texts**

Goals and Expectations

Participants will:

- understand the developmental process of acquiring and using vocabulary beginning in the primary grades.
- learn how to identify Tier Two and Tier Three words within a text
- use criteria to select Tier Two words for explicit instruction
- use a common instructional guide to prepare for explicit instruction
- understand the importance of focusing on Tier Two words as a way to prepare students for the complex texts called for in the CCSS

Context

- A recent study conducted by Nelson, Perfetti, Liben, and Liben, “Measures of Text Difficulty,” compared all of the quantitative and qualitative variables considered when measuring text complexity.
 - Findings:
 - The features that determine text complexity are very uneven, and not equally important, in their effect on text difficulty
 - The features of complexity most predictive of student performance are **vocabulary and syntax**

“It is widely accepted among researchers that the difference in students’ vocabulary levels is a key factor in disparities in academic achievement... but that vocabulary instruction has been neither frequent nor systematic in most schools.”

(Appendix A of Common Core State Standards for ELA)

Vocabulary in the CCSS

L.CCR.4:

Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.

L.CCR.5:

Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

L.CCR.6:

Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

Making Connections within the CCSS

Making Connections within the CCSS

LCCR.4:

Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.

LCCR.5:

Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

LCCR.6:

Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

Connections:

R.CCR.4:

Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.

Connections:

Three Tiers of Words

- **Tier One words** are the words of everyday speech usually learned in the early grades. They are not considered a challenge to the average native speaker, though English language learners of any age will require support from teachers.
- **Tier Two words** (what the Standards refer to as *general academic words*) are far more likely to appear in written texts than in speech. They appear in all sorts of texts. Tier Two words often represent subtle or precise ways to say relatively simple things. Because Tier Two words are found across many types of texts, they are highly generalizable.
- **Tier Three words** (what the Standards refer to as *domain-specific words*) are specific to a domain or field of study and key to understanding a new concept within a text. Because of their specificity and close ties to content knowledge, Tier Three words are far more common in informational texts than in literature. Recognized as new and “hard” words for most readers, they are often explicitly defined by the author of a text, repeatedly used, and otherwise heavily scaffolded.

Three Tiers of Words

Tier One words are the words of everyday speech usually learned in the early grades. They are not considered a challenge to the average native speaker, though English language learners of any age will have to attend carefully to them.

Tier Two words (what the Standards refer to as *general academic words*) are far more likely to appear in written texts than in speech. They appear in all sorts of texts. Tier Two words often represent subtle or precise ways to say relatively simple things. Because Tier Two words are found across many types of texts, they are highly generalizable.

Tier Three words (what the Standards refer to as *domain-specific words*) are specific to a domain or field of study and key to understanding a new concept within a text. Because of their specificity and close ties to content knowledge, Tier Three words are far more common in informational texts than in literature. Recognized as new and "hard" words for most readers, they are often explicitly defined by the author of a text, repeatedly used, and otherwise heavily scaffolded.

Sorting Activity

Place the following words under the appropriate Tier
by referring to the descriptions above.

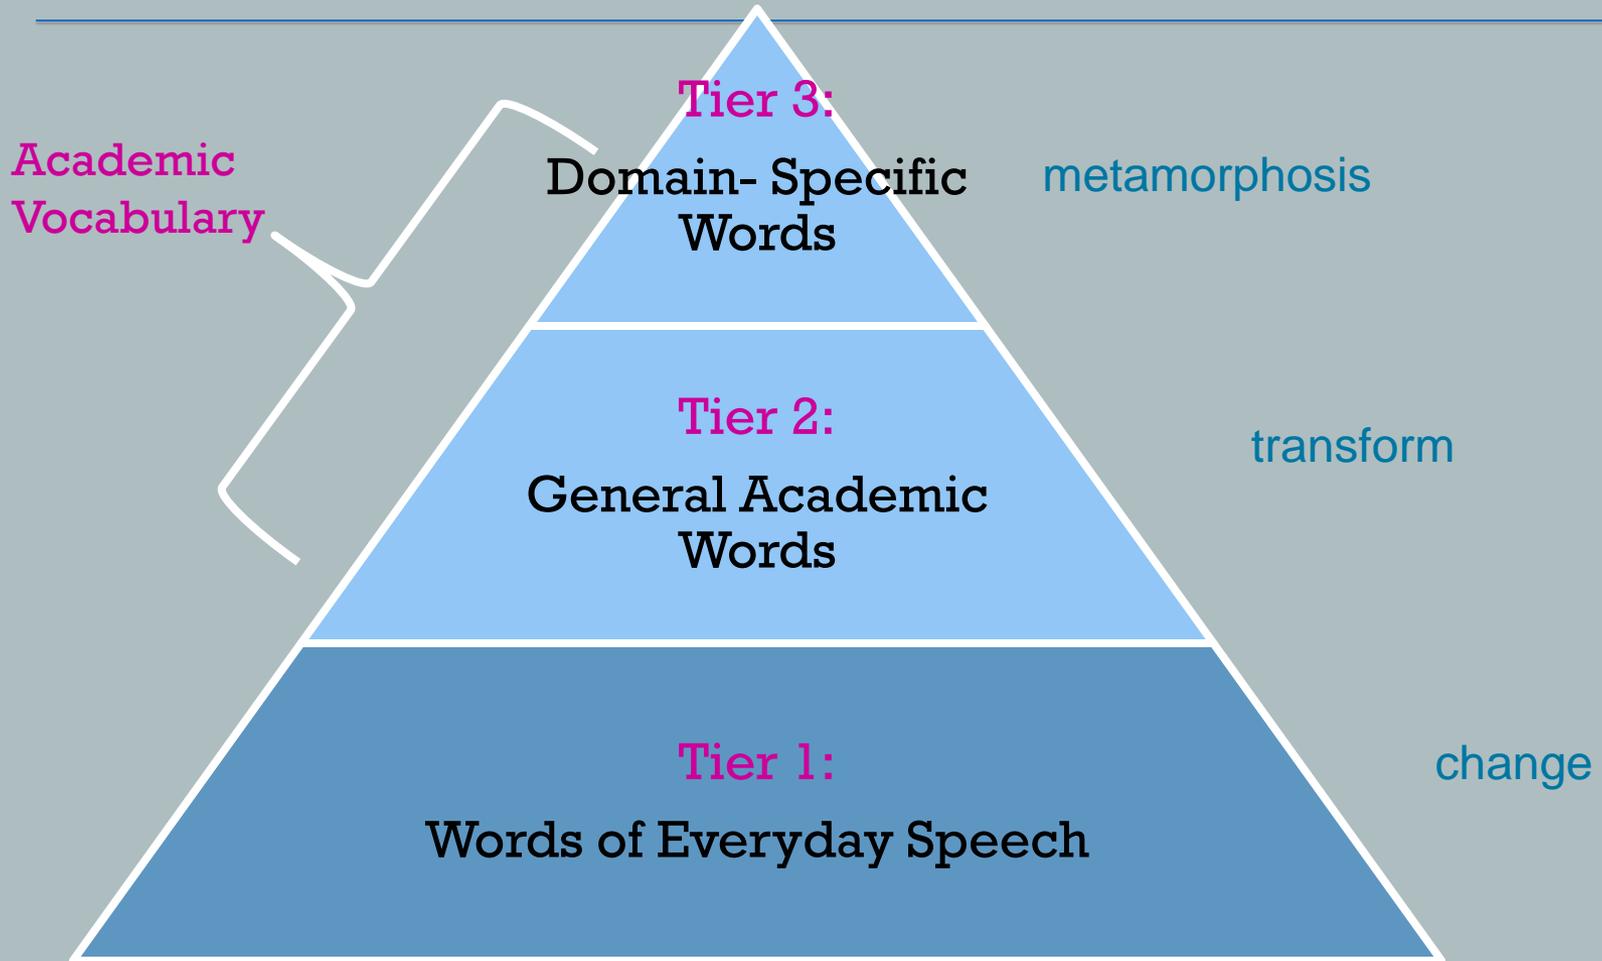

relative cloud accumulate arm misfortune Impressionism
leve carburetor legislature pizza circumference house

Three Tiers of Words

Understanding the Value of Tier One Words

Tier One Words	Multiple Meanings
show	offer information, make known, display, demonstrate, prove
play	amuse oneself, take part in, compete against, a dramatic work, represent a character in a performance, perform an instrument

Access to Complex Texts

Tier Three words often receive the most instructional time and attention because they:

- are unfamiliar to most students
- contain ideas necessary to a new topic
- are important to specific subject areas

Tier Two words are not unique to a particular discipline, therefore are not usually the focus of vocabulary instruction, however they are:

- far less well defined by contextual clues
- far less likely to be defined explicitly within a text than Tier Three words
- frequently encountered in all sorts of texts
- powerful because of their wide applicability to many sorts of reading.
- words that often represent subtle or precise ways to say fairly simple things

The Complexities of Really Knowing A Word

- First, word knowledge is *incremental*, which means that readers need to have many exposures to a word in different contexts before they “know” it.
- Second, word knowledge is *multidimensional*. This is because many words have multiple meanings (e.g., *favor*: an act of kindness; give preferential treatment to) and serve different functions in different sentences, texts, and even conversations.
- Third, word knowledge is *interrelated* in that knowledge of one word (e.g., *urban*) connects to knowledge of other words (e.g., *suburban*, *urbanite*, *urbane*).

Giovanni, Nikki. "Covers." *The 20th Century Children's Poetry Treasury*. Selected by Jack Prelutsky. Illustrated by Meilo So. New York: Knopf, 1999. (1980)

Glass covers windows
to keep the cold away
Clouds cover the sky
to make a rainy day
Nighttime covers
all the things that creep
Blankets cover me
when I'm asleep

A Discussion about Academic Vocabulary and Its Place in the Common Core

[SHIFT 6: Academic Vocabulary](#) from [EngageNY](#) on [Vimeo](#).

<http://engageny.org/resource/common-core-in-ela-literacy-shift-6-academic-vocabulary/>

Reflection

- ⦿ Based on this new learning what will we have to change about our practice?
- ⦿ What challenges will we face as we make this shift?

A Progression of Increasing Expectations

L.K.6	L.1.6	L.2.6	L.3.6	L.4.6	L.5.6	L.6.6, L.7.6 & L.8.6	L.9-10.6 & L.11-12.6
<p>Use words and phrases acquired through conversations, reading and being read to, and responding to texts.</p>	<p>Use words and phrases acquired through conversations, reading and being read to, and responding to texts, including using frequently occurring conjunctions to signal simple relationships (e.g., <i>because</i>).</p>	<p>Use words and phrases acquired through conversations, reading and being read to, and responding to texts, including using adjectives and adverbs to describe (e.g., <i>When other kids are happy that makes me happy</i>).</p>	<p>Acquire and use accurately grade-appropriate conversational, general academic, and domain-specific words and phrases, including those that signal spatial and temporal relationships (e.g., <i>After dinner that night we went looking for them</i>).</p>	<p>Acquire and use accurately grade-appropriate general academic and domain-specific words and phrases, including those that signal precise actions, emotions, or states of being (e.g., <i>quizzed, whined, stammered</i>) and that are basic to a particular topic (e.g., <i>wildlife, conservation, and endangered</i> when discussing animal preservation).</p>	<p>Acquire and use accurately grade-appropriate general academic and domain-specific words and phrases, including those that signal contrast, addition, and other logical relationships (e.g., <i>however, although, nevertheless, similarly, moreover, in addition</i>).</p>	<p>Acquire and use accurately grade-appropriate general academic and domain-specific words and phrases; gather vocabulary knowledge when considering a word or phrase important to comprehension or expression.</p>	<p>Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.</p>

How do students begin to acquire the vocabulary they need?

It is particularly important that students in the earliest grades build knowledge through being read to as well as through reading, with the balance gradually shifting to reading independently. By reading a story or nonfiction selection aloud, teachers allow children to experience written language without the burden of decoding, granting them access to content that they may not be able to read and understand by themselves. Children are then free to focus their mental energy on the words and ideas presented in the text, and they will eventually be better prepared to tackle rich written content on their own. Whereas most titles selected for kindergarten and grade 1 will need to be read aloud exclusively, some titles selected for grades 2–5 may be appropriate for read-alouds as well as for reading independently.

The Role of the Read Aloud in Developing Understanding of Tier Two Words

By the time she got there, the snow was up to her ankles and the wind was worse. It hurried her along and made her stumble. Irene resented this; the box was problem enough. "Easy does it!" she cautioned the wind, leaning back hard against it.

By the middle of the pasture, the flakes were falling thicker. Now the wind drove Irene along so rudely she had to hop, skip, and go helter-skeltering over the knobby ground. Cold snow sifted into her boots and chilled her feet. She pushed out her lip and hurried on. This was an important errand.

Example 1: *Volcanoes*

(Grades 4-5 Text Complexity Band)

Simon, Seymour. *Volcanoes*. New York: HarperCollins, 2006. (2006)

In early times, no one knew how volcanoes formed or why they spouted red-hot molten rock. In modern times, scientists began to study volcanoes. They still don't know all the answers, but they know much about how a volcano works.

Our planet is made up of many layers of rock. The top layers of solid rock are called the crust. Deep beneath the crust is the mantle, where it is so hot that some rock melts. The melted, or molten, rock is called magma.

Volcanoes are formed when magma pushes its way up through the crack in Earth's crust. This is called a volcanic eruption. When magma pours forth on the surface, it is called lava.

Example 1: *Volcanoes (Grades 4–5 Text Complexity Band)*

Simon, Seymour. *Volcanoes*. New York: HarperCollins, 2006. (2006)

Excerpt

In **early times**, no one knew how **volcanoes formed** or why they **spouted red-hot molten** rock. In **modern times**, scientists began to study **volcanoes**. They still don't know all the answers, but they know much about how a **volcano** works.

Our planet made up of many **layers** of rock. The top **layers** of **solid** rock are called the **crust**. Deep beneath the **crust** is the **mantle**, where it is so hot that some rock melts. The melted, or **molten**, rock is called **magma**.

Volcanoes are **formed** when **magma** pushes its way up through the crack in Earth's **crust**. This is called a **volcanic eruption**. When **magma pours forth** on the **surface**, it is called **lava**.

Of the Tier Two words, which word is the most important to the overall meaning of the excerpt?

- An understanding of the word **layers** is necessary both to visualize the structure of the crust (“the top layers of solid rock are called the crust”) and to grasp the notion of the planet being composed of layers.
- Perhaps equally important are the word **spouted** and the phrase **pours forth**; an understanding of each of these is needed to visualize the action of a volcano.
- The same could be said of the word **surface**.
- Both **layers** and **surface** are likely to reappear in middle and high school academic texts, which would justify more intensive instruction in them in grades 4–5.

Example 2: *Freedom Walkers*

(Grades 6-8 Text Complexity Band)

Freedman, Russell. *Freedom Walkers: The Story of the Montgomery Bus Boycott*. New York: Holiday House, 2006. (2006)

From the Introduction: "Why They Walked"

Not so long ago in Montgomery, Alabama, the color of your skin determined where you could sit on a public bus. If you happened to be an African American, you had to sit in the back of the bus, even if there were empty seats up front.

Back then, racial segregation was the rule throughout the American South. Strict laws—called "Jim Crow" laws—enforced a system of white supremacy that discriminated against blacks and kept them in their place as second-class citizens.

People were separated by race from the moment they were born in segregated hospitals until the day they were buried in segregated cemeteries. Blacks and whites did not attend the same schools, worship in the same churches, eat in the same restaurants, sleep in the same hotels, drink from the same water fountains, or sit together in the same movie theaters.

In Montgomery, it was against the law for a white person and a Negro to play checkers on public property or ride together in a taxi.

Most southern blacks were denied their right to vote. The biggest obstacle was the poll tax, a special tax that was required of all voters but was too costly for many blacks and for poor whites as well. Voters also had to pass a literacy test to prove that they could read, write, and understand the U.S. Constitution. These tests were often rigged to disqualify even highly educated blacks. Those who overcame the obstacles and insisted on registering as voters faced threats, harassment. And even physical violence. As a result, African Americans in the South could not express their grievances in the voting booth, which for the most part, was closed to them. But there were other ways to protest, and one day a half century ago, the black citizens in Montgomery rose up in protest and united to demand their rights—by walking peacefully.

It all started on a bus.

Example 2: *Freedom Walkers* (Grades 6–8 Text Complexity Band)

Freedman, Russell. *Freedom Walkers: The Story of the Montgomery Bus Boycott*. New York: Holiday House, 2006. (2006)

From the Introduction: “Why They Walked”

Not so long ago in Montgomery, Alabama, the color of your skin **determined** where you could sit on a public bus. If you happened to be an African American, you had to sit in the back of the bus, even if there were empty seats up front.

Back then, **racial segregation** was the rule throughout the American South. Strict laws-called “**Jim Crow**” laws-enforced a system of **white supremacy** that **discriminated** against blacks and kept them in their place as **second-class** citizens.

People were separated by race from the moment they were born in **segregated** hospitals until the day they were buried in **segregated** cemeteries. Blacks and whites did not attend the same schools, **worship** in the same churches, eat in the same restaurants, sleep in the same hotels, drink from the same water fountains, or sit together in the same movie theaters.

In Montgomery, it was against the law for a white person and a Negro to play checkers on public property or ride together in a taxi.

Most southern blacks were denied their right to vote. The biggest **obstacle** was the **poll tax**, a special tax that was required of all voters but was too costly for many blacks and for poor whites as well. Voters also had to pass a **literacy** test to prove that they could read, write, and understand the U.S. Constitution. These tests were often **rigged to disqualify** even highly educated blacks. Those who overcame the **obstacles** and insisted on **registering** as voters faced threats, **harassment**. And even physical violence. As a result, African Americans in the South could not express their **grievances** in the voting booth, which for the most part, was closed to them. But there were other ways to protest, and one day a half century ago, the black citizens in Montgomery rose up in protest and united to demand their rights—by walking peacefully.

It all started on a bus.

Tier Two ~ Tier Three

Academic Vocabulary's Critical Role in a Close Reading

- “Given how crucial vocabulary knowledge is for academic and career success, it is essential that these high value words be discussed and lingered over during the instructional sequence.”
(www.achievethecore.org)
- An effective set of text-dependent questions used during a close reading will guide students in extracting the key meanings or ideas. These sets of questions typically begin by exploring the most powerful academic words in the text and then examining the impact of those words on the text as a whole in order to build comprehension.

Tier Two Words in Close Reading

Text Under Discussion	Text-Dependent Guiding Questions
<p>"Four score and seven years ago our fathers brought forth on this continent, a new nation, conceived in Liberty, and dedicated to the proposition that all men are created equal."</p>	<p><i>What does Lincoln mean by "four score and seven years ago"? Who are "our fathers"?</i></p> <p><i>What does conceived mean?</i></p> <p><i>What does proposition mean?</i></p> <p><i>What is he saying is significant about America? Is he saying that no one has been free or equal before? So what is new?</i></p> <p><i>When was "four score and seven years ago"?</i></p> <p><i>What does Lincoln tell us in this first sentence about what happened 87 years ago?</i></p>
<p>"Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure."</p>	<p><i>What impact does starting the sentence with "now" have on its meaning?</i></p> <p><i>When Lincoln says the nation was "so conceived and so dedicated" what is he referring to?</i></p> <p><i>What is the point including the phrase "or any nation so conceived and so dedicated" – what would the sentence mean without it?</i></p> <p><i>The impact of a word choice: What if Lincoln had used the verb "start" instead of "conceive"?</i></p>
<p>(Review entire speech)</p>	<p><i>Look carefully at Lincoln's speech; which verb does he use the most (sometime he uses it in the past tense)? Circle the verb each time it appears in the text.</i></p>
<p>"Four score and seven years ago our fathers brought forth on this continent, a new nation, conceived in Liberty, and dedicated to the proposition that all men are created equal.</p> <p>Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure."</p>	<p><i>What does the word "dedicate," mean the first two times Lincoln uses it, and what other verb is closely linked to it the first two times it appears?</i></p>
<p>"We have come to dedicate a portion of that field, as a final resting place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.</p> <p>But, in a larger sense, we can not dedicate—we can not consecrate—we can not hallow—this ground."</p>	<p><i>How is "dedicate" used the next two times, and how does it relate to the word consecrate? Who is now doing the dedicating?</i></p>

Reflection

- How will the integration of Tier Two words into text-dependent questions allow students to gain a deeper understanding of the text?

Criteria for Choosing Tier Two Words to Teach

Choosing Tier Two Words for Focused Instruction	
Criteria:	Tier Two Words
Word is central to understanding the text	<i>obstacle</i>
Word choice and nuance are significant	<i>determined</i>
Students are likely to see this word frequently	<i>disqualify</i>
Word is a more mature or precise label for concepts already known to students	<i>harassment</i>
Word lends itself to teaching a web of words and concepts around it	<i>segregation</i>

Key to Unlocking Meaning: Words that are substantively related to plot or meaning in the text and will be most useful in helping students understand the text or a part of the text.

Author's Word Choice: Words that may be familiar to students but which illustrate the power of an author's word choice to reveal information about a character, situation, or concept.

Importance and Utility: Words that are characteristic of mature language users and appear frequently across a variety of domains.

Conceptual Understanding: Words for which students understand the general concept but provide precision and specificity in describing the concept.

Instructional Potential: Words that can be worked with in a variety of ways so that students can build rich representations of them and of their connections to other words and concepts.

Choosing Tier Two Words for Focused Instruction	
Criteria:	Tier Two Words
Word is central to understanding the text	<i>obstacle</i>
Word choice and nuance are significant	determined
Students are likely to see this word frequently	<i>disqualify</i>
Word is a more mature or precise label for concepts already known to students	<i>harassment</i>
Word lends itself to teaching a web of words and concepts around it	<i>segregation</i>

Preparing for Explicit Instruction			
Purpose for learning.	Critical details that define the new word in everyday language	Highly specific examples and non-examples	Connections to previously learned material
Commonly used to mean a barrier <i>that someone tries to overcome</i> . By using obstacle, instead of difficulty or hindrance, the author suggests that segregation was an obstacle people struggled against. It is critical that students have a deep understanding of the word obstacle in order to fully understand the text.	An obstacle is something that gets in a person's way and keeps the person from getting what he wants or where he wants to go.	Example: Not being able to get a job is an obstacle to saving for a car. Poverty is an obstacle for going to the college of your dreams. Non-Examples: something in your way that's easy to get around	Hardship is an obstacle to overcome in <i>Esperanza Rising</i> In <i>Wilma Unlimited</i> , Wilma Rudolph had to overcome the obstacle of polio
Determined has multiple meanings and the one in this passage (decided, dictated) is not the most familiar. Students may think they know this word, but they won't understand the text if they don't grasp that knowing the right meaning is essential.	As used in the first sentence, <i>determined</i> means dictated or decided [in advance]. Determined here means decided by some other person or group who does not allow the person affected to have a say in the matter.	Examples: If the principal determined that only students with the best behavior are allowed to go on the field trip. Non-Example: when something can be one way or another. Or, when there is no rule or law that says what will happen.	<i>In Roll of Thunder, Hear My Cry</i> , the race of the Logans and their friends determined whether they kept their jobs and how they were treated by the law. In <i>Holes</i> , Stanley's future was determined when he is mistakenly accused of theft.

Activity

- ⦿ **Group according to text excerpt.**
 - Primary group: *“Celebration”*
 - Elementary group: *A Medieval Feast*
 - Middle School group: *Cathedral: The Story of Its Construction*
 - High School group: *Working Knowledge: Electronic Stability Control*
- ⦿ **Read excerpt for context.**
- ⦿ **Reread excerpt to identify some Tier Two and Tier Three words.**
 - Be sure that your group decides on a consistent way to mark each Tier (i.e., circling, underlining, highlighting)
- ⦿ **Discuss identified Tier Two and Tier Three words with partner/small group.**

Activity Continued

Use the Instructional Guide for General Academic Vocabulary

- ◉ Choose 4-6 Tier Two words from the text that match the criteria and record in the Instructional Guide
- ◉ Discuss the four steps for preparing explicit instruction
- ◉ Choose **one** word to prepare for instruction.
 - Follow the four steps by engaging in discussion and recording the group's thinking below each appropriate step.

Reflection

1. What are some new insights you have gained from this process?
2. How might you use this process to plan vocabulary instruction for a specific population you teach? (E.g., English learners, students with disabilities, or struggling readers.)
3. How do you see this process evolving?

Let's Make This Process Meaningful

- Refer to the text that you brought from your classroom
- Reread the text to identify and highlight some Tier Two words.
- Discuss identified Tier Two words with group (if working with group)
- Refer to the criteria for choosing Tier Two words
 - Choose 4-6 Tier Two words from your text that match the criteria and record them in the first column of the Instructional Guide.
- Choose one word to prepare for instruction.
 - Follow the four steps by engaging in discussion and recording your thinking below each appropriate step.

Increasing and Strengthening Academic Vocabulary Instruction

- ◉ Be deliberate when choosing general academic words to teach explicitly.
- ◉ Focus on fewer words so that there is time for word exploration and analysis.
- ◉ Teach general academic words early and often, especially with students whose exposure might otherwise be delayed, such as English learners and struggling readers. Teach these words throughout all grades and subject areas.
- ◉ Consistently provide multiple opportunities for students to learn and practice the words.
- ◉ Provide active engagement in learning tasks so that learning is effective.
- ◉ When crafting text-dependent questions that focus on vocabulary, extend students' thinking by focusing on the author's purpose and impact of the word.
- ◉ Incorporate general academic vocabulary instruction within close reading lessons to deepen word and text understanding.
