

What Song Should We Sing ? Song Choice Board

160 songs
Song Sentence Strip

Description

This is a song card that can be used during circle time to help children make a song selection. For students who are non-verbal or using PECS as their communication system it allows them to make the selection and give it to the adults. However all children can use the boards. I find that using it gives children a greater selection of songs and more autonomy than if the teacher picked all the songs.

- Songs are something that can assist in the development of language as well as other learning (rhyming, counting etc.) The repetition of the lyrics aids in memory and the fact that the vowels are elongated assists some children in developing of verbal skills.
- There are some sentence strips too to aid in using full sentences when making the song choice. You can limit the number of songs that you have the students choose from or expand or switch out according to the season or the unit that you are doing.
- Visit my store as there is a free song "Baby Beluga" that you can use in conjunction with this song card.
 - Enjoy and if there are songs that you would like to see featured tell me!

SONG LIST
